Gemini Notebook

A renovation shouldn't feel like a dozen separate problems.

1

The Old Way: Scattered emails, shifting dates, and surprise invoices.

The TSD Way: Every step feeds the next. One connected ecosystem.

The Renovation Reality Check

	The Traditional Remodel	The TSD “One Loop”
Planning	Guesswork & mood boards	360° Photoreal dimensioned brief.
Sourcing	Scattered Google searches	Curated matching with Victoria’s best locals.
Budgeting	Surprise invoices & hidden fees	Live, auto-updating project proposal.
Management	Chasing trades via text message	One living schedule where everyone stays in step.

Your living dashboard builds itself.

02 Cabinetry: Urbana Kitchens — $38,000

Real quotes land directly in your dashboard.

05 Appliances: $22,500

Live Total: $69,700 (3 of 10 received)

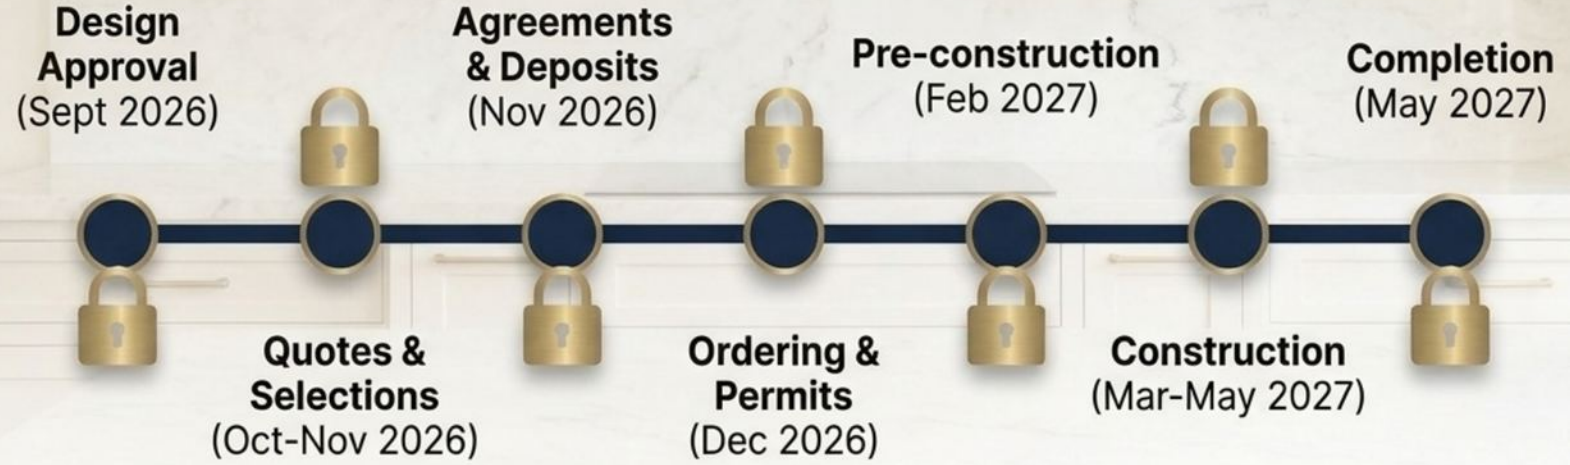

The budget auto-updates in real-time as pending quotes are approved.

No spreadsheets to update. The pros fill in the numbers; you just watch it come together.

Step 4: Stay Current →

One schedule. Every trade in step.

Construction dates shift. When they do, the whole chain adjusts automatically. No crew arrives to a room that isn't ready.
